## WHAT IS CLAIMED IS

15

- 1. A gelled composition comprising approximately by weight:
- (a) 4% o 9% of a magnesium salt of a C<sub>8</sub>-C<sub>18</sub> linear alkyl benzene sulfonate surfactant;
- 5 (b) 1% to 4% of a sodium salt of a C<sub>8</sub>-C<sub>18</sub> linear alkyl benzene sulfonate surfactant;
  - (c) 7% to 7% of an amine oxide surfactant;
  - (d) 5% to 10% of an alkyl polyglucoside;
  - (e) 0 to 14% of an ethoxylated C<sub>8</sub>-C<sub>18</sub> alkyl ether sulfate surfactant;
- 10 (f) 0.25% to 3% of a C<sub>1</sub>-C<sub>3</sub> alkanol;
  - (g) 14% to 24% of a hydrophobic ethoxylated nonionic surfactant; and
  - (h) the balance being water.
  - 2. A gelled cleaning composition according to Claim 1 which includes, in addition, 0.5% to 8% by weight of a solubilizing agent which is a water soluble salts of  $C_1$ - $C_3$  alkyl substituted benzene sulfonate hydrotropes and mixtures thereof.
  - 3. A gelled cleaning composition according to Claim 1 further including a color stabilizer.
  - 4. A gelled cleaning composition according to Claim 1 further including a chelating agent.
- 5. A gelled cleaning composition according to Claim 1 further including a preservative.
  - 6. A gelled composition according to Claim 1 further including gelatin beads suspending in said gelled composition.
